

CRISTOPHER MORALES

Full-Stack Developer

Tokyo, Japan • 080-9355-9193 • crismorinaga@outlook.com

Spanish: Native | English: Fluent, TOEIC 985/990 | Japanese: Intermediate

PROFESSIONAL SUMMARY

Full-Stack Developer based in Tokyo, working primarily with TypeScript, React, Next.js, and PostgreSQL. Built full-stack applications featuring authentication, streaming AI responses, structured retrieval, persistent state, and recovery workflows. Passed the PhilNITS/ITPEC Fundamental Information Technology Engineer Examination, mutually recognized as equivalent to Japan's IPA FE examination.

PROFESSIONAL CERTIFICATION

Fundamental Information Technology Engineer Examination (FE)

PhilNITS / ITPEC | Passed 2026

Mutually recognized by Japan's Information-technology Promotion Agency (IPA) as equivalent to Japan's FE examination and eligible for preferential immigration treatment for IT engineers.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Frontend: React, Next.js, Tailwind CSS, Zustand

Backend & Data: Node.js, PostgreSQL, Supabase, Flask, Upstash Redis, IndexedDB

Tools & Services: Git, GitHub, Clerk, Resend, Vercel

Concepts: REST APIs, authentication, WebSockets, relational databases, data structures and algorithms

SOFTWARE DEVELOPMENT

INDEPENDENT SOFTWARE DEVELOPMENT | APR 2023 – PRESENT

RSTavern | Dec 2025 – Present [[Live App](#)]

Next.js, TypeScript, PostgreSQL, Supabase, Clerk, Resend, OpenAI API, Upstash Redis, IndexedDB

- Built a full-stack AI companion that provides contextual, in-character RuneScape quest guidance, reducing the need to search across lengthy wiki pages, forum posts, and video guides.
- Developed a retrieval pipeline combining keyword matching, semantic search, intent classification, and structured conversation metadata to improve the relevance of quest and item guidance.
- Designed deterministic follow-up resolution for ambiguous questions such as "What should I do next?" using stored quest-step and item metadata instead of relying solely on LLM conversation history.
- Implemented streamed responses, branching chat history, authentication, rate limiting with Upstash Redis, retries, and recovery workflows for interrupted or inconsistent operations.

RNGMeter | Oct 2025 – Dec 2025 [[Live Demo](#)]

Next.js, TypeScript, IndexedDB, Alt1

- Built a RuneScape overlay that updates in real time by consuming game state from the Alt1 Toolkit API to detect boss kills and item drops.
- Calculated and visualized cumulative drop probabilities for multiple tracked items, automatically updating them after each encounter.
- Persisted kill counts, obtained drops, and tracker state locally with IndexedDB across sessions.

PROFESSIONAL EXPERIENCE

CUSTOMER SERVICE, Tokyo Juice, Japan

Apr 2025 – Jul 2025

- Assisted customers primarily in Japanese while handling transactions, product organization, and daily store operations.

Hotel Graphy Shibuya, Japan

Mar 2024 – Apr 2025

Housekeeping Inspector (Sep 2024 – Apr 2025)

- Promoted to Inspector after approximately six months based on consistent performance and work quality.
- Inspected completed rooms for compliance with hotel standards and coordinated with staff to resolve quality issues before guest arrival.

Housekeeper (Mar 2024 – Sep 2024)

- Prepared guest rooms according to hotel standards while meeting strict daily deadlines.

ENGLISH INSTRUCTOR, Il Nido Reggio Emilia School, Japan

Oct 2022 – Apr 2023

- Planned and delivered lessons for children aged 2 to 8 using the Reggio Emilia approach, adapting activities to each student's needs and development.
- Monitored student progress and communicated regularly with parents, focusing on individual growth rather than standardized expectations.
- Mentored new teachers and supported curriculum planning, lesson preparation, and classroom coordination.

ENGLISH TEACHER

Asincap, Chile

Mar 2020 – Mar 2021

PRIVATE MUSIC INSTRUCTOR

Freelance, Chile

Jan 2018 – Feb 2022

EDUCATION

Bachelor's Degree in Education and Music Pedagogy

Mar 2013 – Jun 2018

University of Playa Ancha, Chile
