

CRISTOPHER MORALES

Full-Stack Developer

Japan • 080-9355-9193 • crismorinaga@outlook.com

Spanish: Native | English: Fluent, TOEIC 985/990 | Japanese: Intermediate

PROFESSIONAL SUMMARY

Full-stack developer working mainly with TypeScript, React, Next.js, Node.js, and PostgreSQL. Built and deployed web applications with authentication, persistent data, streamed AI responses, information retrieval, rate limiting, and failure recovery. Passed the Fundamental Information Technology Engineer Examination (FE).

PROFESSIONAL CERTIFICATIONS

Fundamental Information Technology Engineer Examination (FE)

ITPEC | Passed 2026

Covers core IT engineering subjects including algorithms, data structures, databases, networking, security, software development, and computer architecture. Recognized under Japan's IT examination mutual recognition framework. For IT engineering roles, passing the examination qualifies for preferential immigration treatment by replacing the usual requirement for a related university degree or 10 years of relevant work experience.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Frontend: React, Next.js, Tailwind CSS, Zustand

Backend & Data: Node.js, PostgreSQL, Supabase, Flask, Upstash Redis, IndexedDB

Tools & Services: Git, GitHub, Clerk, Resend, Vercel

Concepts: REST APIs, authentication, WebSockets, relational databases, data structures and algorithms

SOFTWARE DEVELOPMENT

INDEPENDENT SOFTWARE PROJECTS | OCT 2025 – PRESENT

RSTavern | Dec 2025 – Present [\[Live App\]](#)

Next.js, TypeScript, PostgreSQL, Supabase, Clerk, Resend, OpenAI API, Upstash Redis, IndexedDB

- Built a full-stack RuneScape quest companion that answers contextual questions in character using retrieved quest information.
- Developed a retrieval pipeline combining keyword matching, semantic search, intent classification, and structured conversation metadata to improve the relevance of quest and item guidance.
- Handled questions such as “What should I do next?” using stored quest-step and item metadata instead of asking the model to infer everything from chat history.
- Implemented streamed responses, branching conversations, authentication, Upstash rate limits, and recovery for interrupted responses or failed saves.

RNGMeter | Oct 2025 – Dec 2025 [\[Live Demo\]](#)

Next.js, TypeScript, IndexedDB, Alt1

- Built a RuneScape overlay that reads game state exposed by Alt1 to detect boss kills and item drops.
- Calculated and displayed cumulative drop probabilities for several items, updating the values automatically after each kill.
- Stored kill counts, recorded drops, and tracker settings in IndexedDB/local storage between sessions.

PROFESSIONAL EXPERIENCE

CUSTOMER SERVICE, Tokyo Juice, Japan

Apr 2025 – Jul 2025

- Served customers primarily in Japanese and handled checkout and product organization.

Hotel Graphy Shibuya, Japan

Mar 2024 – Apr 2025

Housekeeping Inspector (Sep 2024 – Apr 2025)

- Promoted to Room Inspector after approximately six months.
- Checked completed rooms against hotel standards and asked housekeeping staff to correct issues before guests arrived.

Housekeeper (Mar 2024 – Sep 2024)

- Cleaned and prepared guest rooms to hotel standards within the daily time limit.

ENGLISH INSTRUCTOR, Il Nido Reggio Emilia School, Japan

Oct 2022 – Apr 2023

- Planned and taught lessons for children aged 2 to 8 using the Reggio Emilia approach, adapting activities to each child's needs.
- Tracked each child's progress focusing on individual growth, and regularly discussed it with their parents.
- Guided new teachers and helped with curriculum and lesson planning.

ENGLISH TEACHER, Asincap, Chile

Mar 2020 – Mar 2021

- Prepared students at CEFR A1–A2 levels for the TOEIC test.

PRIVATE PIANO INSTRUCTOR, Chile

Jan 2018 – Feb 2022

- Taught piano to beginner and intermediate students.

EDUCATION

Bachelor's Degree in Education and Music Pedagogy

Mar 2013 – Jun 2018

University of Playa Ancha, Chile
